

4LB Time Capsule

In grade four this year we are learning all about our beautiful province of Alberta. We are learning how we are a part of our province, and that as Albertans we help to tell the story of our province. Time capsules can help to show stories of a group of people, in a particular time. As a class, we are creating a time capsule about what is important to us as students in Alberta right now.

Please feel free to bring in anything you don't mind including in our time capsule this year. Anything you bring in, will be kept in our classroom, and will be given back at the end of the year! It will be exciting to open it in June and see how time changes for us over the year.

Some ideas for items are:

- recent picture
- newspaper clipping
- small household toy/item
- something to represent a hobby or interest
- something to represent your family

Please don't include any items that are very special, or that you are worried about breaking or sharing and discussing with our class. You could take a picture of these items instead- if you really want to include them. Please do not bring large items, keep them small as we have 23 students artifacts to include.

Looking forward to sharing our stories with each other!
